

PRODUCT

The word 'PRODUCT' is written in large, white, bold, sans-serif capital letters. Each letter is positioned over a different colored vertical stripe. The stripes from left to right are: light orange, dark orange, green, red, light blue, pink, purple, yellow, magenta, teal, and light pink. Decorative illustrations are placed around the letters: a small green plant with two yellow flowers on the 'P', a yellow planet with a ring on the 'O', a white paper airplane on the 'U', and a pink butterfly on the 'T'.

BRAND STORY

Since the past 25 years, Toyishland has understood the need of toys for children to encourage imaginative play and ensure safety for the little ones. Decades later, we serve to manufacture toys which are creatively designed, possessing the latest technology and cater mental and physical growth in children.

Toyishland has committed to offer value for money with its toys of premium quality at reasonable prices. We deliver a vast range of toys for children aged between 1 to 8 years. Since 1995, we have pioneered in manufacturing battery operated ride-on cars, swing cars, push cars, slides, storage cabinets and much more.

Our aim is to continue the legacy of trust and excitement for your children with the provision of durable and sustainable toys at affordable prices.
